SUMMARY

Entry Level Full Stack Developer with a strong foundation in developing responsive, interactive, end-to-end, dynamic web applications. Strong proficiency in Java, JavaScript, TypeScript, ES6, React, SQL, HTML, CSS, Flexbox, Bootstrap, Material UI, Chakra UI, web services, and REST APIs. Collaborative team player with experience working with agile development teams.

EDUCATION

New York City College of Technology, CUNY   **Brooklyn, NY**
Bachelor of Technology, Computer Information Systems   *06/2025*
- GPA: 3.48/4.00

SKILLS

Languages & Technologies: Java, JavaScript, TypeScript, HTML, CSS, Flexbox, AJAX, Docker, Git, Node.js, Python, PHP, C#
Databases: MySQL, Oracle Database, Microsoft SQL Server, PostgreSQL, MongoDB
Applications & IDEs: Visual Studio Code, Visual Studio, Eclipse, NetBeans, IntelliJ, Postman, Microsoft Office, GitHub, Asana
Frameworks/Other: React, Angular, Bootstrap, Material UI, Chakra UI, REST APIs, Spring Boot, Firebase, jQuery
Soft Skills: Verbal and Written Communication, Organization, Task-Prioritization, Self-Direction, Teamwork, Research

EXPERIENCE

Web Developer Intern / VergenceXR - New York, NY   *06/2024 - 09/2024*
- Collaborated with other developers on design, coding, and debugging tasks by utilizing a version control system.
- Assisted with data modeling, database design, and database implementation.
- Worked on front-end development tasks to create an interactive and responsive user interface.
- Participated in weekly meetings to discuss progress on tasks assigned and used Asana to track deliverables.
- Implemented OpenAI's ChatGPT API to connect to an application and use AI to generate content based on user input.

Full Stack Web Developer Intern / AlphaPrimeTech - New York, NY   *05/2024 - 08/2024*
- Developed, designed, and tested web applications using HTML, CSS, JavaScript, TypeScript, React, Angular, and Node.js.
- Utilized version control systems such as Git to manage source code repositories and used SCM in Visual Studio Code.
- Built responsive user interfaces utilizing modern front-end technologies such as React, Angular, Material UI, and Chakra UI.
- Integrated third-party services into web applications using REST APIs and developed APIs using Spring Boot and IntelliJ.
- Deployed web applications and services using GitHub Pages, Vercel, Koyeb, Docker, MongoDB, and Firebase.

PROJECTS

React Movie Application with Spring Boot API   *08/2024*
- Designed an application that displays a carousel of movies, along with their trailers, pictures, and user reviews.
- Applied strong programming proficiency in Java to implement a custom Spring Boot API using Maven to connect to MongoDB and designed a dynamic and responsive UI using strong competency in JavaScript, React and Material UI.
- Constructed a movie web application using React and Spring Boot and deployed the app to Koyeb using Docker.
- Engineered a search bar that uses derived state and memoization to allow users to search for specific movies by title.

React Instagram Clone Application with Firebase   *08/2024*
- Architected an Instagram clone social media app, that allows users to log in, post images, and interact with other users.
- Developed expertise in JavaScript, applying React and Chakra UI to produce a clean, responsive, and interactive UI.
- Created a social media app with user authentication and customization, routing, and post creation using Firebase.
